ASPIRING FRONT-END DEVELOPER

PERSONAL PROFILE

I am an aspiring front-end developer who is trying to be 1% better every single day in coding and learning web development. I am planning to learn more about MERN tech stack and NextJS. I aim to continue to broaden my knowledge about web development.

EDUCATIONAL HISTORY

Senior High School - STEM
De La Salle Lipa | 2018 - 2019

College - BS Information Systems
University of Santo Tomas | 2019 - Present

PROJECTS

 # Room Reservation, Equipment Borrowing and Open Laboratory Monitoring System for UST CICS

Techstack: NextJS, MongoDB, SocketIO, Node Cron

A capstone requirement wherein I was responsible on the full stack development of the project which includes constructing the ERD, figuring out how make the system real-time, implement real-time notifications and automations, developing the frontend and backend of the system.

 # Personal Portfolio

Techstack: Vite, React, TailwindCSS, Framer Motion, Jotai

Challenged myself to create components from scratch such as navbar, menu box and tool tip with smooth animation.

 # Inventory Management System for Panlin Merchandising

Techstack: HTML, Bootstrap, Vanilla Javascript, Express, MongoDB

Constructed the ERD, helped in creating the REST API and developed the front-end of the web app.

 # Random Joke Generator

Techstack: HTML, CSS, Vanilla Javascript

A web app that fetches random jokes from Jokes API based on a picked theme.

 # Simple To Do List

Techstack: HTML, CSS, Vanilla Javascript

First web app that I developed. I studied and focused on DOM Manipulation when developing this project.
